
ABOUT ME

I am a motivated and dedicated individual with a strong interest in Python Development. I have knowledge of programming and web development, and I'm currently focused on learning Python and Django. I am hardworking, eager to grow, and always ready to learn something new. My goal is to become confident and skilled in my field.

PROJECT

Vegetable and Fruit Management System

Developed a full-stack web application for managing fruits and vegetables. Implemented secure user authentication with registration, login, and logout. Added key e-commerce features such as Add to Cart, Wishlist, and product categorization. Used Django Models with SQLite for database management and created responsive templates using HTML, CSS, and Bootstrap.

To-Do List Application (Django + SQLite)

Built a responsive task management app allowing users to add and delete daily tasks. Implemented backend using Django and SQLite for storing task data. Designed a simple and user-friendly interface using HTML, CSS, and Bootstrap.
